P0 | Assisted Qualification for Paid Search + Micro

Evidence:  
Paid Search + Micro activated at 36.3%, below Partner + Micro at 52.0%.

Hypothesis:  
This segment may need stronger qualification support or a faster setup path.

Action:  
Pilot a pre-qualification checklist and a 48-hour assisted setup path.

Owner:  
Commercial Operations

P1 | Improve Partner Handoffs

Evidence:  
Partner-sourced Micro merchants activated at 52.0%, above the Paid Search + Micro segment.

Hypothesis:  
Partner intake may provide more complete information and reduce handoff delays.

Action:  
Reuse partner intake fields and trigger a missing-document reminder on day two.

P2 | Early Activation Check-in

Evidence:  
Early activity is available as a retention signal in the synthetic monthly activity data.

Hypothesis:  
Merchants with no early orders may benefit from a structured follow-up.

Action:  
Trigger a day-14 activation check-in for merchants with zero orders.
